

One who truly knows Hari is above caste and status.

1. A person whose wealth is truth, who desists from abusing others, a person who is compassionate to all beings and a person who identifies himself with others, truly knows Hari.

2. A person who lives for the good of others, one who lives without enmity to others even in his mind, one who is detached, one who knows that every thing else manifests in the Self and one who surrenders himself to Sri Venkatesa truly knows Srihari.
