

Why do we require medicines etc. Do they  
have curing effect?

1. Oh Alamelumanga, Your sparkling glances  
touch your Lord like Mamadha's arrows.  
Please share the juice of betel leaves  
with your consort.

2. Your bright smile is like moonlight but it is  
like hot breeze for your lord.  
Why don't you give him nectarine potion  
to comfort him.

3. Your breasts crave to be close to him.  
Why don't you tell him that beautiful  
Gopikas forgot themselves in their  
Lord's company.
