

Oh women, feed child Krishna with uggu (mix of milk and castor oil). He is obstructing with his hands.

1. Oh women, don't swing the cradle roughly lest the 'lokas' in his stomach shake. Please clean up his mouth quickly. Hot milk may cause pain to him.

2. Oh women, don't lift the tender child very high holding his shoulders. He may be upset as his stomach is full with milk.

3. Oh young women, keep the infant Krishna in cradle gently without hurting his body. Please stop uttering harsh words. Don't call him " monkey of hills".
